Web Design, Data Analyst, Technical Writer and Copy Editor, Executive Assistant

Objective

I am seeking contracts and freelance work combining my writing and web-oriented skills now that I have completed both my Adobe Certificate (GPA 3.88) and Web Design Certificate (GPA 4.0) and lastly graduated with my Associate's Degree in Web Design (GPA 3.98 – High Honors).. Testimonials from instructors are available, as are references from colleagues. I am authorized to work in the US for any employer, and there are no obstacles to my obtaining a security clearance. I like to be useful and feel I've made a difference.

Profile

Depend on my work ethic, extensive experience, and up-to-date skill set. I am a “Power User” of MS Office Suite, and can learn, use, and teach other software as needed, quickly and in-depth. New software, and innovative use of standard software to problem-solve, are like intellectual candy. As needed, I can be firm and/or diplomatic, tactful with professionals and non-professionals at all levels, and am accustomed to handling sensitive, confidential records.

Skills Summary

- ♦ Web Site Development
- ♦ Graphics, Animation, Video Editing
- ♦ Marketing, Search-engine Optimization (SEO)
